## **CAREER OBJECTIVE**

Aspiring software developer with a strong foundation in programming and a passion for building innovative solutions. Eager to contribute to a dynamic team where I can apply my technical skills, grow through new challenges, and help drive the organization's success

## **TECHNICAL SKILLS**

- **Programming Languages:** C, C++, JavaScript, java
- **Databases –** MySQL.
- **Web Technologies:** HTML, CSS, JavaScript (including advanced JavaScript), Sass.
- **Frameworks/Libraries:** React js, React Redux.
- **Other Skills:** Object-Oriented Programming (OOP)
- **Development Tools:** Git, Visual Studio Code, Visual Studio, Postman. FIGMA

## **ACADEMIC PROJECTS**

### **CODEPEN CLONE**

- Developed a fully responsive clone of the CodePen website using **React.js** and **Tailwind CSS**, replicating its design and functionality with precision. The project features a sleek, modern interface and includes essential functionalities such as:
- **Text Editor:** Fully functional code editor mimicking CodePen's real-time preview.
- **Navigation Menus:** Intuitive and interactive navigation for seamless browsing.
- **Responsive Design:** Ensures smooth performance across devices of all sizes, providing an authentic user experience.
- **Added Feature:** Integrated the **Unsplash API** to allow users to download high-quality images directly from the site for use in their projects.
- **Technologies Used:** React.js, Tailwind CSS, Axios
- [CodePen](#)

### **E-COMMERCE WEBSITE**

- Developed a fully responsive **E-Commerce website** using **HTML**, **CSS**, and **JavaScript**, delivering a seamless shopping experience with a modern and user-friendly interface. The project replicates essential features of a functional e-commerce platform, including:
- **Product Listings:** Well-organized and visually appealing product catalogue.
- **Responsive Design:** Ensures optimal performance and accessibility across all devices.
- **Technologies Used:** HTML, CSS, JavaScript.
- [E-Commerce Website](#)
